Being a Teacher Lucy Cooker,Tony Cotton,Helen Toft,2018-02-02 Sharing the stories of educators working in a diverse range of international contexts, *Being a Teacher* uses personal narratives to explore effective teaching and learning in global settings. Demonstrating how personal values influence pedagogical practice, and asking how practice can be improved, authors reflect on their experiences not just as teachers, but also as learners, to offer essential guidance for all prospective educational professionals. The book focuses on teacher narratives as a vehicle for consideration of teacher professionalism, and as a way of understanding issues which are important to teachers in different contexts. By sharing and analysing these narratives, the book discusses the increasing complexity of teaching as a profession, and considers the commonality within the narratives. Each chapter includes graphic representations of analysis and encourages its reader to reflect critically on central questions, thereby constructing their own narrative. *Being a Teacher* provides an in-depth and engaging insight into the education system at a global level, making it an essential read for anyone embarking on a teaching career within the international education market.

Wise and Foolish Virgins Sally Campbell Galman,2012 *Wise and Foolish Virgins: White Women at Work in the Feminized*

World of Primary School Teaching by Sally Campbell Galman asks the question, what does it mean for an entire profession to be numerically dominated by white women, and what is the relationship between teacher preparation and professional feminization? The book tells the story of three very different teacher preparation programs, explores the hopes and struggles of the mostly white, female students in those programs, and opens a window upon the closed world of teacher educators themselves who must straddle multiple worlds and multiple masters. With one foot in ancient allegory and the other in contemporary popular culture, this text addresses the complex ecologies of gender identity and negotiation between student teachers, teacher educators, and policy-makers against the politicized backdrop of pop culture feminization and the unique contours of homogenization in the emerging elementary teaching force.
